| TOPIC        | Analytics For Hospital Health Care Data                        |
| TEAM MEMBERS | 1.Manjushamol.R<br>2.DeepakRaj.M<br>3.Prathap.C<br>4.Shabari.M |

Project Objectives of the hospitals health care data Analytics:

- 1.We know the fundamental concepts
2. Work on the IBM Cognos Analytics.
- 3.Keep better track of treatment inventory
4. It helps health care organisations to evaluate and develop practitioners
- 5.To create visualisations and dashboard using data sets
